Track your Prior Authorization Status Using the Judi Rx Member Portal

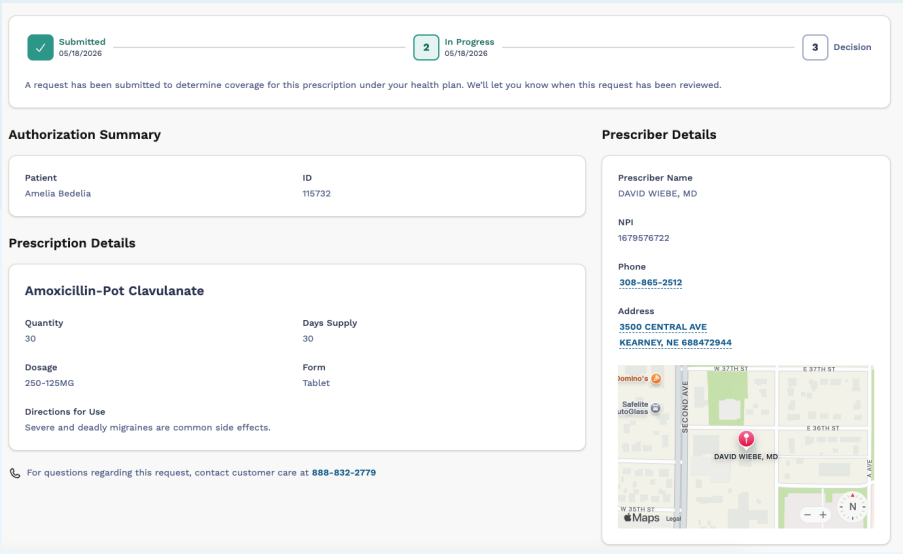

With a clear, user-friendly interface, members can now track their Prior Authorization (PA) progress and see key details in the experience they already use today!

Go to the Judi Rx Member Portal by scanning the QR code or visiting rx.judi.health. Select 'Member Portal' to register or log in. Select Prior Authorization under the Claims & Coverage dropdown.

On the Prior Authorization (PA) dashboard, a list will populate of all prescriptions that a PA has been submitted for. You can sort by searching for a specific drug or status. In the list of PAs you will see the prescription, status of the PA, request date, and closed date (if applicable).

Select View Details to see more details about your PA.

Prior authorization details on this screen includes status, drug information, and prescriber information.

Possible statuses include:

- In progress - your PA has been received and is currently being processed.
- Approved
- Denied
- Closed - there was not enough information provided to make a decision on your PA.

Please contact your dedicated Customer Care team by calling the number on your ID card if you have questions about the member portal.
